The comments listed below represent changes and additions to the proposed "Statement of Work W-80C Retrofit Program," called (Doc. #188-0) dated STAT enclosure (2) in letter to 19 January 1967. STAT visit to Aerojet General on 7 February During 1967, the revisions to the statement of work were coordinated with of Aerojet. The revisions were approved STAT should include them in and he stated that STATAT by 🕽 the final statement of work.

The "signed off" specification for the W-80C should also be included as part of the statement of work.

A. Page 1, I, Introduction (line 4)

Add:

". . . and maintainability, in accordance with the provisions of the document "Specification for Passive IR Warning Device (W-80C)" approved on 10 January 1967 by the contractor."

B. Page 2, II, Work Items, paragraph 1(b)

Change to Read:

- b) "Manufacture sufficient for two (2) W-80C units plus operational spares in a minimum quantity of 10 modules.
- C. Page 2, paragraph 2

Add:

d) Servo subsystem

Sanitized Copy Approved for Release 2010/05/17: CIA-RDP72B00464R000100100001-3

Page 2

D. Page 3, paragraph 5

Change to Read:

- ". . . thermoelectric coolers capable of assuring compliance with paragraph 3.1.7. and paragraph 3.5. of the document "Specification for Passive IR Warning Device (W-80C)."
- E. Page 3, paragraph 6

Add:

- d) Elevation scan
- e) Cryogenic subsystem
- F. Page 4, paragraph 12

Add:

- 12. Software items (quantity in accordance with "Specification for Passive IR Warning Device (W-80C)". Appendix B) as follows:.
- G. Page 4, Paragraph 12

In subparagraphs "e", "f", "g", "h", "i", and "k", delete the document quantities.

H. Page 5 (new paragraph)

Add:

13. Determination of Probability of Detection and Detection Range: Probability of detection and determination of detection range shall be determined by testing of the W-80C at the customer's simulation facility. Parameters specified in paragraphs 3.2., 3.3., 3.4., 3.5., and 3.6.4. of the document "Specification for Passive IR Warning Device (W-80C)" shall be used.
